

History of Starkville-Okt. Co. Public Library System Collection

Most of the materials in this collection were brought down from the library director's office and other places to be stored in the archives vault at an unknown time after the Stark Annex wing was completed. Some of the materials were stored in the vault in the original containers, but some of them were transferred to archivally safe folders and document cases by Stark Annex librarians. As time went on more materials were added, and more folders were created for the articles that were found for the chronological files. The scrapbooks materials were transferred into more archivally safe scrapbooks when necessary.

Sometime after 2020 Perian Kerr created series names for the different types of materials in this collection and created the finding aid to tie everything into its place in the collection. This finding aid was revised in November of 2024 to make room for the financial and audit reports collection that was brought down to be added to the collection.

Most of the 7 series of this collection are contained within 8 shelves in two vault range sections, and the blueprints for all three branches are stored in tubes elsewhere in the vault

- Series 1: Starkville-Oktibbeha County Public Library System History Files
 - Series 1.5: Starkville-Oktibbeha County Public Library System Audit Reports
 - Series 2: Blueprints and Architectural Drawings - All Three Branches
 - Series 3: Minute Books - Starkville Public Library and Okt. Co. Library System Boards
 - Series 4: SOC Library System Administrative Archives: 1961-2004, mostly building papers
 - Series 5: Old Photographs, Negatives and CD of Local Stories and Music
 - Series 6: Starkville Public Library Scrapbook Collection
 - Series 7: Miscellaneous Library Plaques
- See also finding aids for Maben Public Library Archives and Maben Local History Collection
